I have had the pleasure of working with Mattias for more than 2 years. Mattias is one of the most competent and efficient Technical Project Managers I have worked with. He has a very professional approach to his work.

Matthias delivers results. He was an asset to the team at Clash and ensured the success of projects under his wing.

Recommending Mattias is the easiest thing i have ever had to do. Never before or since have i work with a more competent or pleasant person. Mattias worked as techinal Project Manager in the production team which i was the head of. I had the pleasure of hiring Mattias, and at once i knew that he was a man that not only would do the work you wanted, he would give it that little extra thing and do it on time. Mattias is an absolut genius at what he does. He has got the ability to understand exactly what you need and still give it a little more. He has got the most wonderful personality, always ready with a smile and is a go to guy. He will always help you any way he can. I can only give Mattias the best recommendations and then some. The people who now get the pleasure of working with him will immidiate know what an asset he is to a business.

Kind Regards.

Natalie Henning
